Principal's Message

"Education is the key to success in life, and teachers make a lasting impact in the lives of their students." This quote by Solomon Ortiz accurately portrays the everyday lives of our teachers, who work tirelessly and whole-heartedly to nurture and support our students all year round. Some teachers even devote more time to their students than to their own children. Thank you, teachers, for your passion and a 'never-give-up' spirit!

On a light-hearted note, I would also like to thank the stray cat, M Lui, who freguents the school ground and visits our students (M Lui was named after the "M" pattern appearing on her forehead). One afternoon, M Lui came to me while I was passing by the tuck shop area; she looked at me, then looked at a student at a corner, then turned back to look at me again. I sensed that M Lui was trying to tell me something. I went closer to the student, and I found that she was crying. I then approached the student and discovered that she was distressed. I eventually helped her solve her problem. Now, you can see that M Lui is not just an ordinary cat; she is our guardian angel and our caretaker as well. If you see her around the campus, be sure to say, "Hello!" This is a way to demonstrate your care for her. More importantly, we should also learn from M Lui—pay attention to those around us, and show our love and care.

After summer, various renovation projects have almost completed. This renovation will bring about significant improvements to our facilities, including the addition of a primary science lab and a Farmunity area for our students. These new additions will enhance the learning experiences of our students and provide them with hands-on opportunities in scientific exploration and agricultural practices.

What is more, we are going to celebrate our school's 60th anniversary next academic year. This is indeed a remarkable milestone, and we will organise an array of celebratory activities. I am very excited and am definitely looking forward to enjoying the festivities!

Good News from Tommy

Tommy Chau Chun Wang

continues to excel in his academic journey.

Admitted to the University of Oxford in the United Kingdom a year early in S.5 to pursue a Master's degree in Physics, Tommy graduated with first-class honours in 2023. During his studies at Oxford, he was awarded the "Scholar of the Year" title twice. Following his graduation, Tommy returned to Hong Kong and joined the Hong Kong University of Science and Technology as a full-time research assistant, and he also contributed to our school community as a tutor. He has recently been awarded Croucher Cambridge International Scholarship to undertake a three-year PhD programme in Physics at the University of Cambridge starting in October 2024. We are proud of his achievements and wish him continued success in his future endeavours.

A Journey to Excellence

Embarking on a new academic year, we celebrate the remarkable achievements of our students and alumni, who exemplify the enduring values of leadership and excellence at St. Margaret's.

Jia Wai Yin Tiffany (S.5C) proudly received the Hong Kong Outstanding Students Award

Cheng Sai Fun (S.5C) was honoured with the Ng Teng Fong Scholarship in 2023.

(From left to right) S.4C Kwan Chun Hei, S.3B Wong Lok Yi, S.5C Chow Yan Hei, and S.6C Ip Hong Ching were awarded the Sham Shui Po Outstanding Student Award and earned the title of Distinguished Students at the 15th Kowloon Region Outstanding Student Election.

Alumni Achievements: Where Are They Now?

Wong Hei Yu Gladys: "Advocating for Change: A Legal Mind at Work"

Bachelor of Laws and Postgraduate Certificate in Laws, The University of Hong Kong
Trainee Solicitor at Robertsons.

"Embracing endless possibilities" has been a guiding principle instilled in me during 12 enriching years at St. Margaret's. I took on various roles, from House Captain to a member of the Students' Association, organizing charitable events that echoed our values.

Transitioning to the University of Hong Kong where I pursued my Bachelor of Laws degree and Postgraduate Certificate in Laws, I seized opportunities like joining the Harvard College in Asia program where I got to engage in cultural and intellectual exchange with students from Harvard and prestigious universities across Asia. Participating in Tsinghua University's Global Summer School and teaming up with its students in the SDG Hackathon to pitch innovative ideas for enhancing governance through adopting new technology, culminating in our recognition as the "Most Investable Team", provided me with insights into government policies, cultural dynamics and customs in mainland China.

Mok Wai Sum Addison: "Charting New Territories in Finance"

Mok Wai Sum Addison

Having graduated from the BBA(IBGM) programme at HKU in 2023, I have embarked on a new chapter of life and started working as a Manager Trainee in the Hong Kong Mortgage Corporation Limited.

Placed in the Infrastructure Financing & Securitisation Division, not only have I sharpened my analytical skills, storytelling ability and detail orientation in doing infrastructure investment, but also sparked my interest in sustainable finance as I have learned and applied current ESG-related standards and trends in my work.

The school has fostered global citizenship and lifelong learning over the years, which shaped me into an industrious and inquisitive young adult with global horizons and helped me realise my career passion. I am grateful for the support I received at St. Margaret's.

Chan Shing Fung: "A Fresh Perspective from Oxford"

Achieved the first-class honours at the Hong Kong Physics Olympiad 2023 and was admitted to Oxford University at 14 years old (Master of Mathematics), supported by the Hong Kong Scholarship of Excellence Scheme

I completed my first year at Oxford, which was very different from what I had initially anticipated. It turned out to be both exciting and challenging, and I made friends with talented college mates and learned to live independently at the age of 15.

Here, less time is allocated to lectures and tutorials, but the workload is tremendous. One problem sheet a day does not sound like much, but they can take up to five hours per sheet. With perseverance, I managed to rank among the top ten in my cohort of 170 mathematics majors. I am very grateful to my teachers at St. Margaret's for giving me opportunities to utilise and develop my talents. Without them, I would not have become who I am today.

Ng Man Lok Matt: "Innovating in Medicine: A Heartfelt Mission"

About to be in my third year of medical school, where I will be pursuing a Master of Research in Medicine degree, I am filled with a deep sense of gratitude and accomplishment as I reflect on my journey at HKU.

"Failure is never quite so frightening as regret." One of the highlights of my second year at HKU was establishing the Students' Cardiology Association of Hong Kong. This initiative was born out of my passion for cardiology and my desire to create a platform for medical and secondary students to engage with this fascinating field of medicine. I am certainly thankful for my experience of being head prefect and the heavy emphasis on student-led culture at St. Margaret's, which gave me both the confidence and drive to turn this idea into reality.

This past summer, I seized the opportunity to explore new fields. I spent two enriching weeks at the University of Cambridge, where I delved into the fields of psychology, AI, and entrepreneurship. The experience was transformative, offering new perspectives and insights that have opened my eyes to the interconnectedness of various disciplines.

Bachelor of Medicine & Bachelor of Surgery, The University of Hong Kong (HKU)

Alumni Sharing

For most of my secondary life, I was not a very good student. Most studying occurred the nights before an examination. I would flip the textbooks and memorise in desperation.

Fortunately, the abundant resources of my school made my journey of redemption smoother. My teachers were more than willing to offer a helping hand, even if it meant additional consultation sessions after class, or answering countless questions about the most basic concepts through text messages. The school also provided students with many tutorial classes in preparation for the public examination. Furthermore, my proficiency in English from studying in this school allowed me to catch up with the syllabus without encountering any language barriers.

Through intense studying and countless personal sacrifices, I was able to make a breakthrough in the public examination. By the grace of God, I am now pursuing my studies in Hong Kong's top university. It is never too late to start, as long as you start now.

I am Emily Leung, and I am currently pursuing the Bachelor of Science in Occupational Therapy at the Hong Kong Polytechnic University.

University life has been amazing: anatomy classes and laboratory sessions are fairly intriguing, classmates and lecturers are interesting, and the placement experience at a Care and Attention Home for the severely disabled had me reflect a lot about life.

I have heard students referring to the DSE as "Determining Social-Economic (status)". In fact, I beg to differ. I always believe "when there's a will, there's a way", so please do not let your DSE results define your future. There are a lot of ways to pursue your dreams! Never give up, and life will find a way

Anyone who has experienced or is experiencing high school life would know it is never a piece of cake. There is a ton that one has to deal with: assignments, quizzes, tests, examinations, interpersonal relationships, extracurricular activities... not to mention the final hurdle, the HKDSE.

I totally understand how stressful and devastating things could get, but please keep in mind the hard work you have paid and always trust yourself! While there are diverse paths you could take, remember to do whatever makes yourself most comfortable and is right for you. Last but not least, do not hesitate to take some rest aside from your study.

After completing the DSE, I was confused about my next step. However, I soon realised that everything falls into place if one has tried their best. I got into LLB Law with Professional Placement at the University of Exeter in the United Kingdom.

Moreover, I secured two summer internship programs in Hong Kong this year. One was at an esteemed law chamber and another at a reputable law firm. I had been told first-year undergraduate students are rarely considered for internships. Nonetheless, I still applied and managed to obtain such amazing opportunities. My education and experiences at St. Margaret's were conducive to my successful university life in the first year. I am grateful for having spent my time here at St. Margaret's.

Vanshika Sharma

After graduating from St. Margaret's, I commenced my university life at the Chinese University of Hong Kong, pursuing a degree in the QFRM programme. The interdisciplinary nature of the programme broadens my knowledge in various fields, such as finance, statistics, mathematics, and computer science. Apart from academics, I joined the Society of Quantitative Finance, where I made new friends and memorable experiences.

I am truly grateful for the past twelve years studying under teachers at St. Margaret's: they helped pave the path to my future studies. Days in Secondary 6, when my teachers tried their best to assist me after their working hours, were unforgettable. I hope this year's graduates will succeed in the HKDSE examination.

75th Hong Kong Schools Speech Festival (English Speech)

Once again, our students have triumphed in the 75th Hong Kong Schools Speech Festival (English Speech). They have reaped a total of 82 top three awards, including 26 Champions, 32 First Runners-up and 24 Second Runners-up, solidifying our dominant position in this annual competition. The dedication of our English teachers, who diligently trained and prepared our students, is the driving force behind our excellence. Our students were empowered to become confident and articulate English speakers.

Our primary students performed the poem "Television" by Roald Dahl with imagination and creativity in the Words and Movements category.

21st Century Cup

Oh Jia Yi (S.5C) took part in the 21st Century Cup National English Speaking Competition (Hong Kong Region). She was one of the 2,000 participants in this territory-wide competition. Her rousing impromptu speech and impactful delivery on gender equality impressed the judges, and she was as a result awarded the First Runner-up trophy in the Senior Secondary division.

Promoting Positive Values and Attitudes through English Sayings of Wisdom (SOW)

Positive education is one of the focuses our school set forth to accomplish as part of our 5-year development plan. The English Department values the importance of fostering and celebrating positivity. As part of the English enrichment programme, Sjafii Eugenia Amabelle (S.3C) and Ting Wei (S.3C) participated in the SOW Motivational Talk competition organized by the Education Bureau and were awarded the Outstanding Award and the Commendable Award respectively. In the Poetry Remake competition, Law Yu Ching (S.2G3) won the Commendable Award with his artistic rendition of "Modern Concrete", a poem written by Eddie Tay.

Tell A Tale Children's Storytelling Competition

In this storytelling competition, students needed to recite a story in three different languages – Cantonese, Putonghua and English, in a professional recording studio. Sebastien Bezombes (P.6B) was chosen as one of the top competitors and was invited to perform live at the finals. He was awarded merit for his outstanding performance.

Experience as a Journalist

Our S.4 students were invited by South China Morning Post (SCMP) to take part in a programme which gave them valuable insights into the life of a journalist. From research to interviews, our students experienced the work of a professional SCMP journalist. Their article was published in the Young Post's issue dated 18 September 2023.

RTHK – 'In the Common Room'

Our P.5 and S.3 students attended interviews for a radio programme co-organised by the RTHK and Education Bureau for the segment 'In the Common Room'. They discussed issues and voiced their opinions on keeping pets and positive thinking respectively in the RTHK studio with the host. The visit included a special behind-the-scenes tour of the radio studios and archive rooms, where students were given insights into the inner workings of radio journalism throughout the years.

UK Study Tour 2023

"S.3 students embarked on a lifetime journey to experience and learnt about the English language and culture.

We boarded our train into the English countryside and were greeted by the hosts from the boarding school, Limehouse Boarding School, in Carlisle, England. We settled into our dorms, and our students prepared for a week-long language and study immersion, participating in all the subjects on offer at Limehouse. We also learned about and experienced English customs and regular school life.

Leaving Carlisle behind, we set our sights on Scotland and spent three days exploring Edinburgh. We visited the famous castle perched on an extinct volcano and watched a parade during the coronation festivities. We visited Loch Ness, home to the monstrous legend Nessie, and witnessed the most beautiful landscape, all while learning about the rich history of Scotland. Our final day in Edinburgh was a whirlwind of exploration as we visited museums, historical sites, and more beautiful views as the day and our trip came to an end.

We will certainly never forget all the great memories we made."

Modern Languages

Consulate Visits

On 15 January 2024, our school welcomed visitors from the Consulate of the Federal Republic of Germany and Goethe Institut, and on the same day we welcomed two representatives from the Education Office of the Embassy of Spain. The objectives of these visits were to discuss how further collaboration with our school could be fostered. We look forward to having more exchanges of this kind in the future.

Japanese Exchange Program

In October 2023, Yu Kei Yi (S.3C), participated in a two-month exchange programme at our sister school in Japan, while a Japanese student named Mitani Dachi from our sister school visited our school for the same duration. Both students had their horizons broadened, and this memorable experience will be with them for a lifetime.

Japanese overseas and local exchanges

Four students and two officers from Miyazaki, Japan visited our school in August 2023 on a cultural exchange day. In January 2024, our P.5 and S.5 students visited Hong Kong Japanese School. Then in February 2024, our school hosted eleven secondary students and six teachers from their school to meet with our S.3 Japanese learners to carry out Japanese language and cultural exchange activities. All the students were able to gain from these meaningful visits.

Modern Languages Week

Modern Languages Week proved to be a resounding success among students spanning both the primary and secondary sections; it provides a captivating immersion into a vibrant amalgamation of cultures, showcasing the four modern languages offered at our school. Engaging in the appreciation of cinematic masterpieces, accompanied by delectable gastronomic delights and adorned in traditional attire, students experienced a sensory journey like no other. Furthermore, through interactive gamified learning such as cultural trivia quizzes and dining etiquette workshops, our students' language proficiency and cross-cultural understanding were nurtured. Modern Languages Week served as a beacon of cultural diversity, encouraging our students to embrace cultural distinctions and proudly exhibit their prowess in modern languages, as well as fostering a sense of global citizenship.

PASCH – Summer Camp Scholarships

Viola Wong (S.3B), Yip Hoi Ching (S.3B) and Ho Ka Yat (S.3C) were awarded the PASCH - Summer Camp Scholarships 2023! They spent days in Hinterzarten, Baden-Württemberg, Germany to hone their language skills with other German learners from all around the world. They experienced life out of their comfort zone and were rewarded with improved confidence, sensibility and independence.

What is more, four of our German learners, S.3B Wong Lok Yi, S.3C Lam Wing Tung, S.3C Ho Yu Chin and S.4C Lai Yui Q Yoki have secured places for the Summer Camp Scholarship (2024). They will spend three weeks in Germany in August 2024.

Sharing Session with Holocaust Survivor

With the support from Geothe Institut, our German department and our History department co-organised a sharing session on 22 March 2024 by Mr. Andrei Iwanowitsch Moiseenko, a Holocaust survivor. Mr. Moiseenko shared his experiences during the time in the concentration camps, and what kept him going despite all the hardships.

Study Tours

Last June, our S.2 to S.3 French language students were finally able to go on a study tour and visited the city of Nice in France after travel restrictions were lifted. Similarly, S.1 to S.4 students went on a Japanese Study Tour to Nagoya in Japan. In January 2024, we organized a study tour for our Spanish S.1 to S.4 students to Seville, Spain. What is more, we will have more tours to Japan, France and Germany in June 2024!

Student Activities

Other Learning Experiences

Students are exposed to other learning experiences through 12 school sports teams, 19 talent classes, 17 interactive activities, 10 interest clubs, 11 uniform teams and 7 service groups. Through all these diverse experiences outside the classroom, our students are nurtured to be all-round individuals with a global mindset.

Civil Aid Service

Civil Aid Service Cadet Corps aims at developing young people to be responsible citizens and future leaders by building their confidence, sense of responsibility, and self-discipline. Students are encouraged to take the initiative to serve the community. After our S.1 and S.2 students finished the Posting Ceremony, they are going to enter the next stage of extensive training held monthly at our school.

Challenge 24

Apart from our students' academic excellence, we are concerned about their self-management skills. A two-day camp "Challenge 24" was organized for P.6 students to enhancing their positive thinking, self-discipline, self-understanding, and team spirit. They had a chance to experience a variety of activities such as city orienteering, adventure-based games, and other team building challenges, such as rock climbing, cooking, and camping at school. It definitely was a wonderful and unforgettable moment for them.

Mathematics

"STEAM Week" was successfully held from 26 February to 1 March 2024. With the cooperation from the Mathematics, Science and Technology department, various STEAM-related booth games and workshops were held throughout the week. Mathematics booth games were designed to encourage students to explore the beauty of mathematics. For example, paper folding of pyramids and frustum helped students explore the beauty of 3D solids. Students also built "Leonardo Bridge" with wooden sticks to understand the structure of a self-supported bridge. They created artwork design using "Polypad" to integrate art elements in mathematics and conducted Bungy Jump experiment to know the factors affecting a bungy jump.

Our secondary students took the lead in the activities and guided students to participate in the booth games. With the devoted participation of our student helpers, our students had a great time during the STEAM Week.

Technology Education

Information & Communication Technology

GRIT (Girls Revolutionizing Innovation and Technology) Project

Five S.4 and S.5 students successfully completed the three-month GRIT project. Led by business and university student volunteers, they designed innovative technology solutions and prototypes to address sustainable development within the community.

Our P.3 and P.4 students excelled in the annual First Lego League (FLL) Explorer competition, earning the Second Runner-Up and Core Values Award out of 32 teams, showcasing their hard work, dedication, and growth in STEAM and communication skills.

STEAM Week

Drones were introduced to primary students, giving them the opportunity to learn how to control the drones and develop a deeper understanding of unmanned aerial vehicle (UAV) technology.

Business, Accounting and Financial Studies

Financial Talk at Citibank

S.5 BAFS students attended the talk at Citibank to learn how to be a savvy investor and identify common fraud types.

Get $et Go! E-City Financial Management Workshop

S.3 students participated in the workshop organised by Hong Kong Family Welfare Society. This sim-life experience helped students reflect on their personal consumption behaviour. This helped build up their positive financial management attitude and values.

HKICPA/HKABE Joint Scholarships for BAFS

Poon Hoi Pui (S.6C) and Ngai Ming Pui Janice (S.6C) were awarded HKICPA/HKABE Joint Scholarships.

Personal, Social and Humanities Education

The 13th Little Financial Secretary Programme

One of our S.4 students was selected to participate in the "Little Financial Secretary 2023" program, where students had the opportunity to meet with the Financial Secretary Mr Paul Chan and learned different financial-related knowledge in the process.

Student Environmental Protection Ambassador Scheme

Our school participated in the Student Environmental Protection Ambassador (SEPA) Scheme.

Some of our secondary students joined a field trip to Tung Ping Chau, part of the Hong Kong Geopark. They learned the importance of taking initiatives to protect the environment.

Outreach Programme organised by the Planning Department

Students from S.1 to S.6 participated in a talk and exhibitions prepared by the Planning Department. From these activities, students explored the future development of Hong Kong.

In order to provide opportunities for students to learn beyond the classroom, students from P.1 to P.4 took part in cross-curricular activities and went to different places in Hong Kong during the First Term Cross-Curricular Activity Day on 18 October 2023.

Hotel Visits – Ocean Park Marriott Hotel and Crowne Plaza, Causeway Bay

Students of S.5 and S.6 visited hotels in order to refine their knowledge in Tourism and Hospitality Studies. It was also very important to learn about the sustainable practices implemented by hotels nowadays.

Historical Exploration of Hong Kong

S.3 students visited Hong Kong Museum of Coastal Defence to learn the history of Hong Kong.

Embracing the Nature

S.3 students visited Bride's Pool to appreciate the natural landscape in Hong Kong.

Workplace Visit

S.3 students visited Aviation Security Company Limited (AVSECO) to experience the security procedures enforced at the Hong Kong International Airport.

Junior Secondary History e-Reading Award Scheme

39 secondary students were awarded certificates and ten secondary students were presented the Appreciation Award in Junior Secondary History e-Reading Award Scheme 2023 organized by EDB and HKU.

CSD Mainland Study Tour

From 9 to 10 April, 2024, all S.5 students joined a two-day Citizenship and Social Development Huizhou Heritage and Innovation Mainland Study Tour, which featured a diverse range of educational and cultural experiences. The itinerary included visits to notable attractions such as Huizhou West Lake, Shuidong Street, Huiyang School Affiliated to SCNU and the Mingshang Technology Company Ltd.

Life Value Education

"L.E.A.D.E.R.S. in Action – Fly Over the Rainbow"

The annual programme "L.E.A.D.E.R.S. in Action – Fly Over the Rainbow" was successfully held for students from P.5 to S.5 in early September 2023. It is our school's tradition to organise this programme to help our students acquire different skills and qualities.

During the LVE lessons

During Life Value Education lessons, all S.1 and S.2 students conducted community service, which was an Elderly Home Visit in Sham Shiu Po District. They prepared a hand-made card which was sent to the elderly during the visit. Students showed their love and care to the people in need in our community.

Community Service Trip

During the Easter holiday, 13 S.4 and S.5 students participated in a service trip in which they spent six days in Chengdu, Sichuan. Students visited the elderly in a local elderly centre and organised games for them. Moreover, students visited a local school where they taught the local students English through staging a play with them.

Furthermore, they joined a volunteer program called Panda Husbandry in the Dujiangyan Panda Centre, organised by the China Conservation and Research Centre for the Giant Panda. Students prepared food for the pandas, helped clean their living place, and observed pandas at a close distance. Students gained valuable experience from this trip and learned a lot about panda conservation.

After the tour, in order to raise the awareness of our students towards the people around the world facing severe food insecurity, our tour participants organised the Oxfam Rice Event inside the school campus in May. They gained a lot of support from both students and teaching staff.

Protect my egg

The “Protect My Egg” Campaign was successfully organised for our primary students. Students had to protect their eggs for a week. They learned how to show their love and care, responsibility, and self-management through joining this meaningful activity.

Graduation Ceremony 2024

Our Graduation Ceremony 2024 was held on Friday, 24 May 2024 at the Auditorium, Sha Tin Town Hall. It was a heartwarming moment for all the parents and our staff to see our graduates step out in their graduation gowns, ready to embrace the future.

We were honoured to have Professor Hong K. Lo, JP, Dean of Engineering, The Hong Kong University of Science and Technology join us as our distinguished Guest of Honour. His presence added prestige to the event and served as an inspiration to our graduates. During his speech, Professor Lo provided guidance to the graduates with a verse from Proverbs 4:23 and 4:24: Guard your heart above all else, for it determines the course of your life. Avoid all perverse talk; stay away from corrupt speech.

We were also fortunate to have Reverend Patrick Sun, Chaplain of St. Joseph's Home for the Aged, to officiate and bless our students at the Candle Lighting Ceremony. During the ceremony, our graduate representatives sincerely delivered the vote of thanks in four different languages – English, Chinese, Japanese, and French. They expressed their heartfelt gratitude to the principal, teachers, parents, and their fellow classmates, all of whom had supported them throughout their learning.

Congratulations to each of our beloved graduates! Our school celebrates their accomplishments and wishes them every success in the journey ahead!

The Power of Love

Our annual magnificent event "The Power of Love" Christmas Charity Show was held on 19 December 2023 at the Academic Community Hall, Hong Kong Baptist University. The show was a resounding success, and we were truly blessed to have a large number of guests, including parents, teachers, and students, who came to enjoy the event. It was a great honor for us to have Reverend Dominic Vu Van Phu, Assistant Parish Priest of St. Teresa's Church, and Ms. Rachel Chan, Co-founder of Esperanza, as our esteemed Guests of Honour.

One of the highlights of the show was when our student representatives proudly presented donation cheques to the Little Sisters of the Poor, St. Mary's Home, and St. Joseph's Home. We were delighted to announce that the total funds raised for the Little Sisters of the Poor and St. Margaret's Educational Organization Ltd amounted to HK$569,336.50. This generous contribution will undoubtedly make a positive impact on the lives of those in need.

The show provided a platform for our students to shine on stage. The show featured a diverse range of programmes, including singing, dancing, and performances on various musical instruments. However, the true highlight of the show came when our teacher, Mr. Papa Marcus Nathaniel Mendoza, and the Drama Team presented a mystery program. Their singing and performance left the audience in awe, as they delivered an absolutely amazing performance.

"The Power of Love" concluded with a grand finale that brought an atmosphere of joy and excitement to the entire venue. The audience was filled with happiness, laughter, and love. We are immensely proud of the success of the show and grateful for the support and participation of everyone involved.

Students' Association

This year, our Students' Association has organised a wide range of engaging and enjoyable activities throughout the academic year. One of the most anticipated events is World Animal Day, where students came together to celebrate and raise awareness about the importance of animal welfare. On this day, various activities such as educational presentations were organised to encourage compassion and respect for animals among students.

Another exciting event is the 'Teachers Have Got Talent' Christmas charity show. This unique and entertaining event showcased the hidden talents of our teachers, from singing to dancing, creating a fun-filled atmosphere for both students and teachers.

Furthermore, the Cultural Day was organised to celebrate the rich diversity at school. During this event, students dressed up in traditional attire representing their respective cultures and showcased their heritage through dance, art and cuisine. The Cultural Day provided an opportunity for students to learn about different cultures, appreciate diversity, and foster a sense of inclusivity within our school. These school activities organised by the Students' Association not only promoted a positive and vibrant school spirit, but also encouraged students to explore their talents, develop a sense of social responsibility, and appreciate the multicultural environment in which they learn and grow.

Sex Education Talks for Primary Students

Two sessions of Sex Education talks were carried out by the End Child Sexual Abuse Foundation in March, targeting P.1 – P.3 and P.4 – P.6 respectively. Contents included understanding your own body and ways of preventing oneself from sexual abuse.

Students' Health Care

Mental health is essential to students' overall well-being as it influences their academic performance, emotional stability, physical health, social interactions, and personal development. To foster a supportive and healthy school environment, our school social workers and students' healthcare team organised engaging games and activities during the mental health week. The event was successfully held, with students receiving valuable mental health tips and souvenirs. Additionally, our school's health ambassadors took the lead in promoting health messages during morning and weekly assemblies.

Kwong Leann (S.4C), Kwan Chun Hei (S.4C), and Chan Yik Hei Alvin (S.4C) were awarded the 15th Healthy Information Student Ambassadors from the Office for Film, Newspaper and Article Administration, as they actively promoted the culture of using the internet in a healthy manner.

In alignment with our School Healthy Eating Policy, we also held a delightful Joyful Fruit Month, where students learned about the benefits of consuming fruits and had the opportunity to enjoy fruits with their classmates and teachers. Through different activities, we established a healthy atmosphere that promotes good habits to our students for their life-long benefits.

Education Bureau Enhanced Smart Teen Project

In January, 30 S.3 students joined "Enhanced Smart Teen Project" co-organised by the Education Bureau and the Fire Services Department. In this five-day camp, they experienced various trainings which aimed at building up their team cooperation, courage, and self-management so that they could become confident, self-disciplined, optimistic students.

Besides, Ms. Tam Hong Ni, Mr. Shiu Ultan, Mak Chun Hong Anthony (S.3A), Liu Boyan (S.3B) and Chong Sing Kiu (S.3C) were nominated to obtain the awards given by the EDB in the Celebration of Success for the Enhanced Smart Teen Project 2023-2024 in July.

Career and Life Planning

JA Company Programme and Lunar New Year Fair

A group of S.4 students participated in the Company Programme organised by Junior Achievement HK. They formed and operated a company called 'Ukiyo' and sold their originally designed products at the JACP trade fair which took place at the K11 Art Mall on 10 March 2024.

Two groups of S.5 students took part in the Lunar New Year Fair at Kwai Chung Sports Ground and Fa Hui Park respectively. With the immense support from parents, schoolmates and teachers, both stalls were successful in making a profit.

Cathay Pacific "I Can Fly Programme"

Integrating aviation know-how with the essence of social service, the 'I Can Fly' programme' is designed to encourage young people to fly high and reach their dreams. Six students from S.3 to S.5 are currently in contention to be selected as an elite group of students who could be flying to Adelaide, Australia to visit the flight training centre in a trip fully sponsored by Cathay Pacific.

Job Shadowing

S.4 students had the opportunity to experience a real-world workplace by shadowing a mentor during the post-examination period. We would like to express our deepest gratitude to the Parent-Teachers Association (PTA) and the Alumni Association for providing our students with these job shadowing opportunities.

S.3 Subject Selection Exhibition

Information regarding university programme requirements and senior secondary elective subjects were displayed to S.2 and S.3 students, as well as their parents.

S.6 Parents Talk on JUPAS Application Preparation

S.6 parents and students attended an information session delivered by career teachers on how to prepare for their university applications in the coming school year.
